PERSONALIZED LEARNING EXPERIENCE

Hello, Grüezi, Guten Tag From Renata Giannini

Hi, my name is Renata, and I am a German teacher and the founder of **DeinDeutschCoach School** since 2022.

I was born in São Paulo, Brazil, but raised in Zug, Switzerland, where I completed my school education.

After pursuing my education, I conducted my language studies mainly in South America, where I deepened my knowledge of English, Portuguese, Spanish and later Italian.

Since 2015 I've been working as a German teacher, having completed teacher training at the Berlitz language school in São Paulo.

With almost 10 years of teaching experience, I am fascinated by the exchange of cultures and curiosity about the languages, due to my own childhood experiences, and the playful spontaneous learning methods I have since developed.

In addition, I've studied and continue to stay up-to-date on the latest educational software.

With me you can rely entirely on my extensive experience and enjoy lively, active and personalized lessons with a focus on conversation.

Tedious grammar tables with hours of explanations are a thing of the past. I prefer to integrate the grammar into the conversation and adapt the topics to your needs. Like a child who learns best what he or she is interested in, I will guide you back to an intuitive curiosity for words and expression in a new language through active learning.
